DIGITAL MICROFICHE SERVICES

We have purchased the best Microfiche Scanner on the market. Save time and money by having your Microfiche ordered, scanned and emailed by one provider!

We have made the investment for you!

Current Microfiche readers/scanners are large expensive machines requiring frequent maintenance. In addition to the power, toner and paper they consume, repairs can be very costly. Eliminate those costs, the time and stress it takes in trying to obtain readable images using old technology. Let our staff take care of your Microfiche requirements by providing scans at a page per second with resolution of up to 600 dpi.

THE TECHNOLOGY—The illumination system uses LED technology and is a hundred times more efficient than typical lamps used. The system software provides real-time viewing on a PC monitor with precise editing controls like, *straighten, crop, brightness, contrast and sharpen* which produce the best quality images.

We guarantee it!

Rates from \$20 per fiche plus \$1.00 per page scanned. High-volume discounts available. Please inquire.

Call today to set up a solution that works for you!
